Journal of Speech, Language, and Hearing Research

Index to Volume 46, 2003

Author Index	1473
Subject Index	1477
Title Index	1482

Author Index

Alwan, A. *See* Hasegawa-Johnson et al., 46(3), 738–753.

Amayreh, M. M. Completion of the consonant inventory of Arabic. 46(3), 517–529.

Anderson, J. D., Pellowski, M. W., Conture, E. G., & Kelly, E. M. Temperamental characteristics of young children who stutter. 46(5), 1221–1233.

Ashmead, D. H. *See* Rothpletz et al., 46(6), 1378–1386.

Au-Yeung, J., Gomez, I. V., & Howell, P. Exchange of disfluency with age from function words to content words in Spanish speakers who stutter. 46(3), 754–765.

Bailey, P. J. *See* Griffiths et al., 46(6), 1352–1366.

Bartlett, C. W. *See* Flax et al., 46(3), 530–543.

Bastock, K. *See* O'Brian et al., 46(2), 503–509.

Bedrosian, J. L., Hoag, L. A., & McCoy, K. F. Relevance and speed of message delivery trade-offs in augmentative and alternative communication. 46(4), 800–817.

Beeson, P. M., Rising, K., & Volk, J. Writing treatment for severe aphasia: Who benefits? 46(5), 1038–1060.

Benasich, A. A. *See* Choudhury & Benasich, 46(2), 261–272.

Benson, A. *See* Dromey & Benson, 46(5), 1234–1246.

Berent, G. P. *See* Parasnis et al., 46(5), 1166–1183.

Bishop, D. V. M. *See* Dale et al., 46(3), 544–560.

Bishop, D. V. M. *See* Laws & Bishop, 46(6), 1324–1339.

Bishop, D. V. M. *See* Viding et al., 46(6), 1271–1282.

Bishop, D. V. M., Price, T. S., Dale, P. S., & Plomin, R. Outcomes of early language delay: II. Etiology of transient and persistent language difficulties. 46(3), 561–575.

Bjorum, E. M. *See* Munson et al., 46(1), 189–202.

Bochner, J. H., Garrison, W. M., Sussman, J. E., & Burkard, R. F. Development of materials for the clinical assessment of speech recognition: The Speech Sound Pattern Discrimination Test. 46(4), 889–900.

Brackenbury, T., & Fey, M. E. Quick incidental verb learning in 4-year-olds: Identification and generalization. 46(2), 313–327.

Bradlow, A. R., Kraus, N., & Hayes, E. Speaking clearly for children with learning disabilities: Sentence perception in noise. 46(1), 80–97.

Breier, J. I., Fletcher, J. M., Foorman, B. R., Klaas, P., & Gray, L. C. Auditory temporal processing in children with specific reading disability with and without attention deficit/hyperactivity disorder. 46(1), 31–42.

Brodsky, M. B., McNeil, M. R., Doyle, P. J., Fossett, T. R. D., Timm, N. H., & Park, G. H. Auditory serial position effects in story retelling for non-brain-injured participants and persons with aphasia. 46(5), 1124–1137.

Brzustowicz, L. M. *See* Flax et al., 46(3), 530–543.

Buckwalter, P. *See* Tomblin et al., 46(6), 1283–1296.

Buder, E. H., & Strand, E. A. Quantitative and graphic acoustic analysis of phonatory modulations: The modulogram. 46(2), 475–490.

Burkard, R. F. *See* Bochner et al., 46(4), 889–900.

Campbell, T. F. *See* Feldman et al., 46(2), 273–287.

Caruso, A. J. *See* Max et al., 46(1), 215–232.

Cha, J. S. *See* Hasegawa-Johnson et al., 46(3), 738–753.

Charest, M. *See* Leonard et al., 46(1), 43–55.

Cheyne, H. A., Hanson, H. M., Genereux, R. P., Stevens, K. N., & Hillman, R. E. Development and Testing of a Portable Vocal Accumulator. 46(6), 1457–1467.

Chin, S. B. Children's consonant inventories after extended cochlear implant use. 46(4), 849–862.

Ching, C. K-Y. *See* Whitehill et al., 46(2), 451–461.

Choudhury, N., & Benasich, A. A. A family aggregation study: The influence of family history and other risk factors on language development. 46(2), 261–272.

Colborn, D. K. *See* Feldman et al., 46(2), 273–287.

Subject Index

Hearing

Nature of Hearing and Its Disorders

Normal Auditory Systems

Auditory temporal order discrimination and backward recognition masking in adults with dyslexia. Griffiths, Y. M., Hill, N. I., Bailey, P. J., & Snowling, M. J. 46(6), 1352–1366.
The influence of phonemic awareness development on acoustic cue weighting strategies in children's speech perception. Mayo, C., Scobbie, J. M., Hewlett, N., & Waters, D. 46(5), 1184–1196.
Wideband energy reflectance measurements in adults with middle-ear disorders. Feeney, M. P., Grant, I. L., & Marryott, L. P. 46(4), 901–911.

Auditory and Other Otic Pathologies

Auditory temporal order discrimination and backward recognition masking in adults with dyslexia. Griffiths, Y. M., Hill, N. I., Bailey, P. J., & Snowling, M. J. 46(6), 1352–1366.
Wideband energy reflectance measurements in adults with middle-ear disorders. Feeney, M. P., Grant, I. L., & Marryott, L. P. 46(4), 901–911.

Hearing Loss and Deafness

Beginning to communicate after cochlear implantation: Oral language development in a young child. Ertmer, D. J., Strong, L. M., & Sadagopan, N. 46(2), 328–340.
Children's consonant inventories after extended cochlear implant use. Chin, S. B. 46(4), 849–862.
Deaf adults without attention deficit hyperactivity disorder display reduced perceptual sensitivity and elevated impulsivity on the Test of Variables of Attention (T.O.V.A.). Parasnis, I., Samar, V. J., & Berent, G. P. 46(5), 1166–1183.
Development of materials for the clinical assessment of speech recognition: The Speech Sound Pattern Discrimination Test. Bochner, J. H., Garrison, W. M., Sussman, J. E., & Burkard, R. F. 46(4), 889–900.
An examination of changes in hearing-aid performance and benefit in the elderly over a 3-year period of hearing-aid use. Humes, L. E., & Wilson, D. L. 46(1), 137–145.
Labeling of /s/ and /ʃ/ by listeners with normal and impaired hearing, revisited. Hedrick, M. S., & Younger, M. S. 46(3), 636–648.
Responses to targets in the visual periphery in deaf and normal-hearing adults. Rothpletz, A. M., Ashmead, D. H., & Tharpe, A. M. 46(6), 1378–1386.
Spectral characteristics of speech at the ear: Implications for amplification in children. Pittman, A. L., Stelmachowicz, P. G., Lewis, D. E., & Hoover, B. M. 46(3), 649–657.
Talker and lexical effects on audiovisual word recognition by adults with cochlear implants. Kaiser, A. R., Kirk, K. I., Lachs, L., & Pisoni, D. B. 46(2), 390–404.
Talker separation and sequential stream segregation in listeners with hearing loss: Patterns associated with talker gender. Mackersie, C. L. 46(4), 912–918.
Wideband energy reflectance measurements in adults with middle-ear disorders. Feeney, M. P., Grant, I. L., & Marryott, L. P. 46(4), 901–911.

Effects of Noise and Issues in Hearing Conservation

Speaking clearly for children with learning disabilities: Sentence perception in noise. Bradlow, A. R., Kraus, N., & Hayes, E. 46(1), 80–97.

Assessment of Hearing

Psychoacoustics

Auditory temporal processing in children with specific reading disability with and without attention deficit/hyperactivity disorder. Breier, J. I., Fletcher, J. M., Foorman, B. R., Klaas, P., & Gray, L. C. 46(1), 31–42.
Talker separation and sequential stream segregation in listeners with hearing loss: Patterns associated with talker gender. Mackersie, C. L. 46(4), 912–918.

Diagnostic Audiology—General

Tri-word presentations with phonemic scoring for practical high-reliability speech recognition assessment. Gelfand, S. A. 46(2), 405–412.
Wideband energy reflectance measurements in adults with middle-ear disorders. Feeney, M. P., Grant, I. L., & Marryott, L. P. 46(4), 901–911.

Specific Diagnostic Techniques and Approaches

Children's consonant inventories after extended cochlear implant use. Chin, S. B. 46(4), 849–862.
Tri-word presentations with phonemic scoring for practical high-reliability speech recognition assessment. Gelfand, S. A. 46(2), 405–412.

Acoustic Immittance

Contralateral acoustic reflex thresholds for tonal activators using wideband energy reflectance and admittance. Feeney, M. P., Keefe, D. H., & Marryott, L. P. 46(1), 128–136.
Wideband energy reflectance measurements in adults with middle-ear disorders. Feeney, M. P., Grant, I. L., & Marryott, L. P. 46(4), 901–911.

Pediatric

Children's consonant inventories after extended cochlear implant use. Chin, S. B. 46(4), 849–862.
Development of materials for the clinical assessment of speech recognition: The Speech Sound Pattern Discrimination Test. Bochner, J. H., Garrison, W. M., Sussman, J. E., & Burkard, R. F. 46(4), 889–900.
Talker and lexical effects on audiovisual word recognition by adults with cochlear implants. Kaiser, A. R., Kirk, K. I., Lachs, L., & Pisoni, D. B. 46(2), 390–404.
Tri-word presentations with phonemic scoring for practical high-reliability speech recognition assessment. Gelfand, S. A. 46(2), 405–412.

Intervention

Habilitation, Rehabilitation, and Education

Beginning to communicate after cochlear implantation: Oral language development in a young child. Ertmer, D. J., Strong, L. M., & Sadagopan, N. 46(2), 328–340.

Hearing Aids and Other Prostheses

Beginning to communicate after cochlear implantation: Oral language development in a young child. Ertmer, D. J., Strong, L. M., & Sadagopan, N. 46(2), 328–340.

An examination of changes in hearing-aid performance and benefit in the elderly over a 3-year period of hearing-aid use. Humes, L. E., & Wilson, D. L. 46(1), 137–145.

Talker and lexical effects on audiovisual word recognition by adults with cochlear implants. Kaiser, A. R., Kirk, K. I., Lachs, L., & Pisoni, D. B. 46(2), 390–404.

ADHD Assessment

Deaf adults without attention deficit hyperactivity disorder display reduced perceptual sensitivity and elevated impulsivity on the Test of Variables of Attention (T.O.V.A.). Parasnis, I., Samar, V. J., & Berent, G. P. 46(5), 1166–1183.

Perception of Speech

Talker separation and sequential stream segregation in listeners with hearing loss: Patterns associated with talker gender. Mackersie, C. L. 46(4), 912–918.

Language

Nature of Normal Language

Language Development

The acquisition of the English plural morpheme by native Mandarin Chinese-speaking children. Jia, G. 46(6), 1297–1311.

Adjective definitions and the influence of word frequency. Marinellie, S. A., & Johnson, C. J. 46(5), 1061–1076.

Beginning to communicate after cochlear implantation: Oral language development in a young child. Ertmer, D. J., Strong, L. M., & Sadagopan, N. 46(2), 328–340.

Changes in the nature of sentence production during the period of grammatical development. Rispoli, M. 46(4), 818–830.

Children's productions of the affix -ed in past tense and past participle contexts. Redmond, S. M. 46(5), 1095–1109.

Completion of the consonant inventory of Arabic. Amayreh, M. M. 46(3), 517–529.

Explaining and controlling regression to the mean in longitudinal research designs. Zhang, X., & Tomblin, J. B. 46(6), 1340–1351.

French–English bilingual children with SLI: How do they compare with their monolingual peers? Paradis, J., Crago, M., Genesee, F., & Rice, M. 46(1), 113–127.

Grammatical morpheme effects on MLU: "The same can be less" revisited. Leonard, L. B., & Finneran, D. 46(4), 878–888.

Language and fluency characteristics of preschoolers' multiple-utterance conversational turns. Logan, K. J. 46(1), 178–188.

Learning new words II: Phonotactic probability in verb learning. Storkel, H. L. 46(6), 1312–1323.

Mental imagery and idiom comprehension: A comparison of school-age children and adults. Nippold, M. A., & Duthie, J. K. 46(4), 788–799.

Parent-reported language skills in relation to otitis media during the first 3 years of life. Feldman, H. M., Dollaghan, C. A., Campbell, T. F., Colborn, D. K., Janosky, J., Kurs-Lasky, M., Rockette, H. E., Dale, P. S., & Paradise, J. L. 46(2), 273–287.

The performance of low-income, African American children on the Preschool Language Scale–3. Qi, C. H., Kaiser, A. P., Milan, S. E., Yzquierdo, Z., & Hancock, T. B. 46(3), 576–590.

Phonological features of child African American English. Craig, H. K., Thompson, C. A., Washington, J. A., & Potter, S. L. 46(3), 623–635.

Quick incidental verb learning in 4-year-olds: Identification and generalization. Brackenbury, T., & Fey, M. E. 46(2), 313–327.

The role of the input in the acquisition of third person singular verbs in English. Theakston, A. L., Lieven, E. V. M., & Tomasello, M. 46(4), 863–877.

Surface forms and grammatical functions: Past tense and passive participle use by children with specific language impairment. Leonard, L. B., Deevy, P., Miller, C. A., Rauf, L., Charest, M., & Kurtz, R. 46(1), 43–55.

Language Use in Adults

Adjective definitions and the influence of word frequency. Marinellie, S. A., & Johnson, C. J. 46(5), 1061–1076.

Auditory serial position effects in story retelling for non-brain-injured participants and persons with aphasia. Brodsky, M. B., McNeil, M. R., Doyle, P. J., Fossett, T. R. D., Timm, N. H., & Park, G. H. 46(5), 1124–1137.

The role of semantic complexity in treatment of naming deficits: Training semantic categories in fluent aphasia by controlling exemplar typicality. Kiran, S., & Thompson, C. K. 46(4), 773–787.

Language Differences and Different Languages

Completion of the consonant inventory of Arabic. Amayreh, M. M. 46(3), 517–529.

French–English bilingual children with SLI: How do they compare with their monolingual peers? Paradis, J., Crago, M., Genesee, F., & Rice, M. 46(1), 113–127.

Morphology in picture descriptions provided by persons with Alzheimer's disease. Kavé, G., & Levy, Y. 46(2), 341–352.

Phonological features of child African American English. Craig, H. K., Thompson, C. A., Washington, J. A., & Potter, S. L. 46(3), 623–635.

Verbal Learning and Memory

Auditory serial position effects in story retelling for non-brain-injured participants and persons with aphasia. Brodsky, M. B., McNeil, M. R., Doyle, P. J., Fossett, T. R. D., Timm, N. H., & Park, G. H. 46(5), 1124–1137.

Working memory capacity and language processes in children with specific language impairment. Marton, K., & Schwartz, R. G. 46(5), 1138–1153.

Language Disorders

Aphasia and Other Adult Language Disorders

Agrammatic comprehension of simple active sentences with moved constituents: Hebrew OSV and OVS structures. Friedmann, N., & Shapiro, L. P. 46(2), 288–297.

Auditory serial position effects in story retelling for non-brain-injured participants and persons with aphasia. Brodsky, M. B., McNeil, M. R., Doyle, P. J., Fossett, T. R. D., Timm, N. H., & Park, G. H. 46(5), 1124–1137.

Collaborative referencing between individuals with aphasia and routine communication partners. Hengst, J. A. 46(4), 831–848.

Delayed predictive accuracy of narrative recall after traumatic brain injury: Salience and explicitness. Kennedy, M. R. T., & Nawrocki, M. D. 46(1), 98–112.

Effectiveness of communication strategies used by caregivers of persons with Alzheimer's disease during activities of daily living. Small, J. A., Gutman, G., Makela, S., & Hillhouse, B. 46(2), 353–367.

Morphology in picture descriptions provided by persons with Alzheimer's disease. Kavé, G., & Levy, Y. 46(2), 341–352.

The role of semantic complexity in treatment of naming deficits: Training semantic categories in fluent aphasia by controlling exemplar typicality. Kiran, S., & Thompson, C. K. 46(4), 773–787.

The role of syntactic complexity in treatment of sentence deficits in agrammatic aphasia: The complexity account of treatment efficacy (CATE). Thompson, C. K., Shapiro, L. P., Kiran, S., & Sobecks, J. 46(3), 591–607.

Writing treatment for severe aphasia: Who benefits? Beeson, P. M., Rising, K., & Volk, J. 46(5), 1038–1060.

Language Disorders in Children

Acoustic and perceptual correlates of stress in nonwords produced by children with suspected developmental apraxia of speech and children with phonological disorder. Munson, B., Bjorum, E. M., & Windsor, J. 46(1), 189–202.

Auditory temporal processing in children with specific reading disability with and without attention deficit/hyperactivity disorder. Breier, J. I., Fletcher, J. M.,

Foorman, B. R., Klaas, P., & Gray, L. C. 46(1), 31–42.
Children's productions of the affix -ed in past tense and past participle contexts. Redmond, S. M. 46(5), 1095–1109.
Clinical outcomes as a function of target selection strategy: A response to Morrisette and Gierut. Rvachew, S., & Nowak, M. 46(2), 386–389.
A comparison of language abilities in adolescents with Down syndrome and children with specific language impairment. Laws, G., & Bishop, D. V. M. 46(6), 1324–1339.
Explaining and controlling regression to the mean in longitudinal research designs. Zhang, X., & Tomblin, J. B. 46(6), 1340–1351.
A family aggregation study: The influence of family history and other risk factors on language development. Choudhury, N., & Benasich, A. A. 46(2), 261–272.
French–English bilingual children with SLI: How do they compare with their monolingual peers? Paradis, J., Crago, M., Genesee, F., & Rice, M. 46(1), 113–127.
Genetic and environmental mediation of the relationship between language and nonverbal impairment in 4-year-old twins. Viding, E., Price, T. S., Spinath, F. M., Bishop, D. V. M., Dale, P. S., & Plomin, R. 46(6), 1271–1282.
Grammatical morpheme effects on MLU: "The same can be less" revisited. Leonard, L. B., & Finneran, D. 46(4), 878–888.
Inferring emotional reactions in social situations: Differences in children with language impairment. Ford, J. A., & Milosky, L. M. 46(1), 21–30.
Intonation abilities of children with speech and language impairments. Wells, B., & Peppé, S. 46(1), 5–20.
A method for examining productivity of grammatical morphology in children with and without specific language impairment. Miller, C. A., & Deevy, P. 46(5), 1154–1165.
Outcomes of different speech and language goal attack strategies. Tyler, A. A., Lewis, K. E., Haskill, A., & Tolbert, L. C. 46(5), 1077–1094.
Outcomes of early language delay: I. Predicting persistent and transient language difficulties at 3 and 4 years. Dale, P. S., Price, T. S., Bishop, D. V. M., & Plomin, R. 46(3), 544–560.
Outcomes of early language delay: II. Etiology of transient and persistent language difficulties. Bishop, D. V. M., Price, T. S., Dale, P. S., & Plomin, R. 46(3), 561–575.
Parent-reported language skills in relation to otitis media during the first 3 years of life. Feldman, H. M., Dollaghan, C. A., Campbell, T. F., Colborn, D. K., Janosky, J., Kurs-Lasky, M., Rockette, H. E., Dale, P. S., & Paradise, J. L. 46(2), 273–287.
The performance of low-income, African American children on the Preschool Language Scale–3. Qi, C. H., Kaiser, A. P., Milan, S. E., Yzquierdo, Z., & Hancock, T. B. 46(3), 576–590.
Processing and linguistic markers in young children with specific language impairment (SLI). Conti-Ramsden, G. 46(5), 1029–1037.
Specific language impairment in families: Evidence for co-occurrence with reading impairments. Flax, J. F., Realpe-Bonilla, T., Hirsch, L. S., Brzustowicz, L. M., Bartlett, C. W., & Tallal, P. 46(3), 530–543.
The stability of primary language disorder: Four years after kindergarten diagnosis. Tomblin, J. B., Zhang, X., Buckwalter, P., & O'Brien, M. 46(6), 1283–1296.
Surface forms and grammatical functions: Past tense and passive participle use by children with specific language impairment. Leonard, L. B., Deevy, P., Miller, C. A., Rauf, L., Charest, M., & Kurtz, R. 46(1), 43–55.
Unified treatment recommendations: A response to Rvachew and Nowak (2001). Morrisette, M. L., & Gierut, J. A. 46(2), 382–385.
Word learning by preschoolers with specific language impairment: What predicts success? Gray, S. 46(1), 56–67.

Learning Disabilities

Auditory temporal processing in children with specific reading disability with and without attention deficit/hyperactivity disorder. Breier, J. I., Fletcher, J. M., Foorman, B. R., Klaas, P., & Gray, L. C. 46(1), 31–42.
The perception of "sine-wave speech" by adults with developmental dyslexia. Rosner, B. S., Talcott, J. B., Witton, C., Hogg, J. D., Richardson, A. J., Hansen, P. C., & Stein, J. F. 46(1), 68–79.
Speaking clearly for children with learning disabilities: Sentence perception in noise. Bradlow, A. R., Kraus, N., & Hayes, E. 46(1), 80–97.
Specific language impairment in families: Evidence for co-occurrence with reading impairments. Flax, J. F., Realpe-Bonilla, T., Hirsch, L. S., Brzustowicz, L. M., Bartlett, C. W., & Tallal, P. 46(3), 530–543.

Language Disorders in Mental Retardation

Repair behavior in children with intellectual impairments: Evidence for metalinguistic competence. Levy, Y., Tennebaum, A., & Ornoy, A. 46(2), 368–381.

Assessment and Intervention

Assessment

Auditory serial position effects in story retelling for non-brain-injured participants and persons with aphasia. Brodsky, M. B., McNeil, M. R., Doyle, P. J., Fossett, T. R. D., Timm, N. H., & Park, G. H. 46(5), 1124–1137.
Children's consonant inventories after extended cochlear implant use. Chin, S. B. 46(4), 849–862.
Grammatical morpheme effects on MLU: "The same can be less" revisited. Leonard, L. B., & Finneran, D. 46(4), 878–888.
Parent-reported language skills in relation to otitis media during the first 3 years of life. Feldman, H. M., Dollaghan, C. A., Campbell, T. F., Colborn, D. K., Janosky, J., Kurs-Lasky, M., Rockette, H. E., Dale, P. S., & Paradise, J. L. 46(2), 273–287.
The performance of low-income, African American children on the Preschool Language Scale–3. Qi, C. H., Kaiser, A. P., Milan, S. E., Yzquierdo, Z., & Hancock, T. B. 46(3), 576–590.
Processing and linguistic markers in young children with specific language impairment (SLI). Conti-Ramsden, G. 46(5), 1029–1037.
Specific language impairment in families: Evidence for co-occurrence with reading impairments. Flax, J. F., Realpe-Bonilla, T., Hirsch, L. S., Brzustowicz, L. M., Bartlett, C. W., & Tallal, P. 46(3), 530–543.
Writing treatment for severe aphasia: Who benefits? Beeson, P. M., Rising, K., & Volk, J. 46(5), 1038–1060.

Physiological Measures of Language Function

Atypical syntactic processing in individuals who stutter: Evidence from event-related brain potentials and behavioral measures. Cuadrado, E. M., & Weber-Fox, C. M. 46(4), 960–976.

Intervention

Auditory serial position effects in story retelling for non-brain-injured participants and persons with aphasia. Brodsky, M. B., McNeil, M. R., Doyle, P. J., Fossett, T. R. D., Timm, N. H., & Park, G. H. 46(5), 1124–1137.
Clinical outcomes as a function of target selection strategy: A response to Morrisette and Gierut. Rvachew, S., & Nowak, M. 46(2), 386–389.
The effectiveness of grammar instruction for individuals who use augmentative and alternative communication systems: A preliminary study. Lund, S. K., & Light, J. 46(5), 1110–1123.
Outcomes of different speech and language goal attack strategies. Tyler, A. A., Lewis, K. E., Haskill, A., & Tolbert, L. C. 46(5), 1077–1094.
The role of semantic complexity in treatment of naming deficits: Training semantic categories in fluent aphasia by controlling exemplar typicality. Kiran, S., & Thompson, C. K. 46(4), 773–787.
The role of syntactic complexity in treatment of sentence deficits in agrammatic aphasia: The complexity account of treatment efficacy (CATE). Thompson, C. K., Shapiro, L. P., Kiran, S., & Sobecks, J. 46(3), 591–607.
Unified treatment recommendations: A response to Rvachew and Nowak (2001). Morrisette, M. L., & Gierut, J. A. 46(2), 382–385.
Writing treatment for severe aphasia: Who benefits? Beeson, P. M., Rising, K., & Volk, J. 46(5), 1038–1060.

Nonspeech Communications Systems

The effectiveness of grammar instruction for individuals who use augmentative and alternative communication systems: A preliminary study. Lund, S. K., & Light, J. 46(5), 1110–1123.

The performance of typically developing $2\frac{1}{2}$-year-olds on dynamic display AAC technologies with different system layouts and language organizations. Drager, K. D. R., Light, J. C., Speltz, J. C., Fallon, K. A., & Jeffries, L. Z. 46(2), 298–312.

Augmentative and Alternative Communication

The performance of typically developing $2\frac{1}{2}$-year-olds on dynamic display AAC technologies with different system layouts and language organizations. Drager, K. D. R., Light, J. C., Speltz, J. C., Fallon, K. A., & Jeffries, L. Z. 46(2), 298–312.

Relevance and speed of message delivery trade-offs in augmentative and alternative communication. Bedrosian, J. L., Hoag, L. A., & McCoy, K. F. 46(4), 800–817.

Dementia

Effectiveness of communication strategies used by caregivers of persons with Alzheimer's disease during activities of daily living. Small, J. A., Gutman, G., Makela, S., & Hillhouse, B. 46(2), 353–367.

Family Aggregation

A family aggregation study: The influence of family history and other risk factors on language development. Choudhury, N., & Benasich, A. A. 46(2), 261–272.

Research Methodology

Explaining and controlling regression to the mean in longitudinal research designs. Zhang, X., & Tomblin, J. B. 46(6), 1340–1351.

Speech

Nature of Normal Speech

Development of Speech and Voice

Changes in the human vocal tract due to aging and the acoustic correlates of speech production: A pilot study. Xue, S. A., & Hao, G. J. 46(3), 689–701.

Methodological issues in studies of early articulatory development: A response to Dworkin, Meleca, and Stachler (2003). Green, J. R., Moore, C. A., & Reilly, K. J. 46(4), 1020–1021.

More on the role of the mandible in speech production: Clinical correlates of Green, Moore, and Reilly's (2002) findings. Dworkin, J. P., Meleca, R. J., & Stachler, R. J. 46(4), 1016–1019.

Anatomy and Physiology of the Adult Speech System

Association of orofacial muscle activity and movement during changes in speech rate and intensity. McClean, M. D., & Tasko, S. M. 46(6), 1387–1400.

Changes in the human vocal tract due to aging and the acoustic correlates of speech production: A pilot study. Xue, S. A., & Hao, G. J. 46(3), 689–701.

Comparison of transducers and intraoral placement options for measuring linguapalatal contact pressure during speech. Searl, J. P. 46(6), 1444–1456.

Effects of concurrent motor, linguistic or cognitive tasks on speech motor performance. Dromey, C., & Benson, A. 46(5), 1234–1246.

Interarticulator coordination in dysarthria: An X-ray microbeam study. Weismer, G., Yunusova, Y., & Westbury, J. R. 46(5), 1247–1261.

Kinematic analyses of speech, orofacial nonspeech, and finger movements in stuttering and nonstuttering adults. Max, L., Caruso, A. J., & Gracco, V. L. 46(1), 215–232.

More on the role of the mandible in speech production: Clinical correlates of Green, Moore, and Reilly's (2002) findings. Dworkin, J. P., Meleca, R. J., & Stachler, R. J. 46(4), 1016–1019.

Posterior pharyngeal wall position in the production of speech. Magen, H. S., Kang, A. M., Tiede, M. K., & Whalen, D. H. 46(1), 241–251.

Respiratory and laryngeal responses to an oral air pressure bleed during speech. Huber, J. E., & Stathopoulos, E. T. 46(5), 1207–1220.

Respiratory sinus arrhythmia during speech production. Reilly, K. J., & Moore, C. A. 46(1), 164–177.

Vowel category dependence of the relationship between palate height, tongue height, and oral area. Hasegawa-Johnson, M., Pizza, S., Alwan, A., Cha, J. S., & Haker, K. 46(3), 738–753.

Perception of Speech

Contributions of semantic and facial information to perception of nonsibilant fricatives. Jongman, A., Wang, Y., & Kim, B. H. 46(6), 1367–1377.

Development of materials for the clinical assessment of speech recognition: The Speech Sound Pattern Discrimination Test. Bochner, J. H., Garrison, W. M., Sussman, J. E., & Burkard, R. F. 46(4), 889–900.

Implementing speech supplementation strategies: Effects on intelligibility and speech rate of individuals with chronic severe dysarthria. Hustad, K. C., Jones, T., & Dailey, S. 46(2), 462–474.

The influence of phonemic awareness development on acoustic cue weighting strategies in children's speech perception. Mayo, C., Scobbie, J. M., Hewlett, N., & Waters, D. 46(5), 1184–1196.

Labeling of /s/ and /ʃ/ by listeners with normal and impaired hearing, revisited. Hedrick, M. S., & Younger, M. S. 46(3), 636–648.

Perception of place of articulation by children with cleft palate and posterior placement. Whitehill, T. L., Francis, A. L., & Ching, C. K-Y. 46(2), 451–461.

The perception of "sine-wave speech" by adults with developmental dyslexia. Rosner, B. S., Talcott, J. B., Witton, C., Hogg, J. D., Richardson, A. J., Hansen, P. C., & Stein, J. F. 46(1), 68–79.

Perceptual normalization for inter- and intratalker variation in Cantonese level tones. Wong, P. C. M., & Diehl, R. L. 46(2), 413–421.

Speaking clearly for children with learning disabilities: Sentence perception in noise. Bradlow, A. R., Kraus, N., & Hayes, E. 46(1), 80–97.

Talker separation and sequential stream segregation in listeners with hearing loss: Patterns associated with talker gender. Mackersie, C. L. 46(4), 912–918.

Speech and Voice Disorders

Articulation and Resonance Disorders

Acoustic and perceptual correlates of stress in nonwords produced by children with suspected developmental apraxia of speech and children with phonological disorder. Munson, B., Bjorum, E. M., & Windsor, J. 46(1), 189–202.

Evidence of motor programming deficits in children diagnosed with DAS. Nijland, L., Maassen, B., & van der Meulen, S. 46(2), 437–450.

Implementing speech supplementation strategies: Effects on intelligibility and speech rate of individuals with chronic severe dysarthria. Hustad, K. C., Jones, T., & Dailey, S. 46(2), 462–474.

Interarticulator coordination in dysarthria: An X-ray microbeam study. Weismer, G., Yunusova, Y., & Westbury, J. R. 46(5), 1247–1261.

Outcomes of different speech and language goal attack strategies. Tyler, A. A., Lewis, K. E., Haskill, A., & Tolbert, L. C. 46(5), 1077–1094.

Perception of place of articulation by children with cleft palate and posterior placement. Whitehill, T. L., Francis, A. L., & Ching, C. K-Y. 46(2), 451–461.

Unified treatment recommendations: A response to Rvachew and Nowak (2001). Morrisette, M. L., & Gierut, J. A. 46(2), 382–385.

Physiologically Based Speech Disorders

Accuracy and variability of isochronous rhythmic timing across motor systems in stuttering versus nonstuttering individuals. Max, L., & Yudman, E. M. 46(1), 146–163.

Acoustic characteristics of the question–statement contrast in severe dysarthria due to cerebral palsy. Patel, R. 46(6), 1401–1415.

Anticipatory coarticulation in multiple sclerosis and Parkinson's disease. Tjaden, K. 46(4), 990–1008.

Association of orofacial muscle activity and movement during changes in speech rate and intensity. McClean, M. D., & Tasko, S. M. 46(6), 1387–1400.

The effect of pacing strategies on the variability of speech movement sequences in

dysarthria. McHenry, M. A. 46(3), 702–710.
Interarticulator coordination in dysarthria: An X-ray microbeam study. Weismer, G., Yunusova, Y., & Westbury, J. R. 46(5), 1247–1261.
Kinematic analyses of speech, orofacial nonspeech, and finger movements in stuttering and nonstuttering adults. Max, L., Caruso, A. J., & Gracco, V. L. 46(1), 215–232.
More on the role of the mandible in speech production: Clinical correlates of Green, Moore, and Reilly's (2002) findings. Dworkin, J. P., Meleca, R. J., & Stachler, R. J. 46(4), 1016–1019.

Speech and Voice Disorders in Personality and Psychiatric Disturbances

Anxiety levels in people who stutter: A randomized population study. Craig, A., Hancock, K., Tran, Y., & Craig, M. 46(5), 1197–1206.

Stuttering and Other Fluency Disturbances

Accuracy and variability of isochronous rhythmic timing across motor systems in stuttering versus nonstuttering individuals. Max, L., & Yudman, E. M. 46(1), 146–163.
Acoustic startle responses and temperament in individuals who stutter. Guitar, B. 46(1), 233–240.
Anxiety levels in people who stutter: A randomized population study. Craig, A., Hancock, K., Tran, Y., & Craig, M. 46(5), 1197–1206.
Association of orofacial muscle activity and movement during changes in speech rate and intensity. McClean, M. D., & Tasko, S. M. 46(6), 1387–1400.
Atypical syntactic processing in individuals who stutter: Evidence from event-related brain potentials and behavioral measures. Cuadrado, E. M., & Weber-Fox, C. M. 46(4), 960–976.
The Camperdown program: Outcomes of a new prolonged-speech treatment model. O'Brian, S., Onslow, M., Cream, A., & Packman, A. 46(4), 933–946.
Exchange of disfluency with age from function words to content words in Spanish speakers who stutter. Au-Yeung, J., Gomez, I. V., & Howell, P. 46(3), 754–765.
Generalizability theory I: Assessing reliability of observational data in the communication sciences. O'Brian, N., O'Brian, S., Packman, A., & Onslow, M. 46(3), 711–717.
Generalizability theory II: Application to perceptual scaling of speech naturalness in adults who stutter. O'Brian, S., Packman, A., Onslow, M., & O'Brian, N. 46(3), 718–723.
Interpreting differences in stuttering frequency on content and function words: A reply to Wingate (2003). Dayalu, V. N., Kalinowski, J., & Stuart, A. 46(6), 1471–1472.
Is listener comfort a viable construct in stuttering research? O'Brian, S., Packman, A., Onslow, M., Cream, A., O'Brian, N., & Bastock, K. 46(2), 503–509.
Kinematic analyses of speech, orofacial nonspeech, and finger movements in stuttering and nonstuttering adults. Max, L., Caruso, A. J., & Gracco, V. L. 46(1), 215–232.
Language and fluency characteristics of preschoolers' multiple-utterance conversational turns. Logan, K. J. 46(1), 178–188.
The Lidcombe behavioral data language of stuttering. Teesson, K., Packman, A., & Onslow, M. 46(4), 1009–1015.
Major problems with a revisit. Wingate, M. E. 46(6), 1468–1470.
Phonological priming in picture naming of young children who stutter. Melnick, K. S., Conture, E. G., & Ohde, R. N. 46(6), 1428–1443.
Temperamental characteristics of young children who stutter. Anderson, J. D., Pellowski, M. W., Conture, E. G., & Kelly, E. M. 46(5), 1221–1233.

Voice and Other Laryngeal Disorders

Development and Testing of a Portable Vocal Accumulator. Cheyne, H. A., Hanson, H. M., Genereux, R. P., Stevens, K. N., & Hillman, R. E. 46(6), 1457–1467.
DNA microarray gene expression analysis of a vocal fold polyp and granuloma. Thibeault, S. L., Hirschi, S. D., & Gray, S. D. 46(2), 491–502.
Do vocal warm-up exercises alleviate vocal fatigue? Milbrath, R. L., & Solomon, N. P. 46(2), 422–436.
Oral breathing challenge in participants with vocal attrition. Sivasankar, M., & Fisher, K. V. 46(6), 1416–1427.
Perception of vocal tremor. Kreiman, J., Gabelman, B., & Gerratt, B. R. 46(1), 203–214.
Perceptual evaluation of tracheoesophageal speech by naive and experienced judges through the use of semantic differential scales. van As, C. J., Koopmans-van Beinum, F. J., Pols, L. C. W., & Hilgers, F. J. M. 46(4), 947–959.
Quantitative and graphic acoustic analysis of phonatory modulations: The modulogram. Buder, E. H., & Strand, E. A. 46(2), 475–490.
Three treatments for teachers with voice disorders: A randomized clinical trial. Roy, N., Weinrich, B., Gray, S. D., Tanner, K., Stemple, J. C., & Sapienza, C. M. 46(3), 670–688.

Dysphagia

The effects of taste and consistency on swallow physiology in younger and older healthy individuals: A surface electromyographic study. Ding, R., Logemann, J. A., Larson, C. R., & Rademaker, A. W. 46(4), 977–989.

Assessment and Intervention

Assessment

Quantitative and graphic acoustic analysis of phonatory modulations: The modulogram. Buder, E. H., & Strand, E. A. 46(2), 475–490.

Acoustic Measures of Speech and Voice

Acoustic and perceptual correlates of stress in nonwords produced by children with suspected developmental apraxia of speech and children with phonological disorder. Munson, B., Bjorum, E. M., & Windsor, J. 46(1), 189–202.
Articulation rate and speech-sound normalization failure. Flipsen, P., Jr. 46(3), 724–737.
Development and Testing of a Portable Vocal Accumulator. Cheyne, H. A., Hanson, H. M., Genereux, R. P., Stevens, K. N., & Hillman, R. E. 46(6), 1457–1467.
Evidence of motor programming deficits in children diagnosed with DAS. Nijland, L., Maassen, B., & van der Meulen, S. 46(2), 437–450.
Interarticulator coordination in dysarthria: An X-ray microbeam study. Weismer, G., Yunusova, Y., & Westbury, J. R. 46(5), 1247–1261.
Perception of vocal tremor. Kreiman, J., Gabelman, B., & Gerratt, B. R. 46(1), 203–214.
Quantitative and graphic acoustic analysis of phonatory modulations: The modulogram. Buder, E. H., & Strand, E. A. 46(2), 475–490.
Speaking clearly for children with learning disabilities: Sentence perception in noise. Bradlow, A. R., Kraus, N., & Hayes, E. 46(1), 80–97.
Vocal dose measures: Quantifying accumulated vibration exposure in vocal fold tissues. Titze, I. R., Švec, J. G., & Popolo, P. S. 46(4), 919–932.

Intervention

Do vocal warm-up exercises alleviate vocal fatigue? Milbrath, R. L., & Solomon, N. P. 46(2), 422–436.
The effect of pacing strategies on the variability of speech movement sequences in dysarthria. McHenry, M. A. 46(3), 702–710.
Implementing speech supplementation strategies: Effects on intelligibility and speech rate of individuals with chronic severe dysarthria. Hustad, K. C., Jones, T., & Dailey, S. 46(2), 462–474.
Outcomes of different speech and language goal attack strategies. Tyler, A. A., Lewis, K. E., Haskill, A., & Tolbert, L. C. 46(5), 1077–1094.
Three treatments for teachers with voice disorders: A randomized clinical trial. Roy, N., Weinrich, B., Gray, S. D., Tanner, K., Stemple, J. C., & Sapienza, C. M. 46(3), 670–688.
Unified treatment recommendations: A response to Rvachew and Nowak (2001). Morrisette, M. L., & Gierut, J. A. 46(2), 382–385.

Instrumentation for Diagnosis, Treatment, and Research

Comparison of transducers and intraoral placement options for measuring linguapalatal contact pressure during speech.

Searl, J. P. 46(6), 1444–1456.
Development and Testing of a Portable Vocal Accumulator. Cheyne, H. A., Hanson, H. M., Genereux, R. P., Stevens, K. N., & Hillman, R. E. 46(6), 1457–1467.
DNA microarray gene expression analysis of a vocal fold polyp and granuloma. Thibeault, S. L., Hirschi, S. D., & Gray, S. D. 46(2), 491–502.
The effects of taste and consistency on swallow physiology in younger and older healthy individuals: A surface electromyographic study. Ding, R., Logemann, J. A., Larson, C. R., & Rademaker, A. W. 46(4), 977–989.
Methodological issues in studies of early articulatory development: A response to Dworkin, Meleca, and Stachler (2003). Green, J. R., Moore, C. A., & Reilly, K. J. 46(4), 1020–1021.
More on the role of the mandible in speech production: Clinical correlates of Green, Moore, and Reilly's (2002) findings. Dworkin, J. P., Meleca, R. J., & Stachler, R. J. 46(4), 1016–1019.
Perception of vocal tremor. Kreiman, J., Gabelman, B., & Gerratt, B. R. 46(1), 203–214.
Quantitative and graphic acoustic analysis of phonatory modulations: The modulogram. Buder, E. H., & Strand, E. A. 46(2), 475–490.

Nonspeech Communication Systems

Implementing speech supplementation strategies: Effects on intelligibility and speech rate of individuals with chronic severe dysarthria. Hustad, K. C., Jones, T., & Beiley, S. 46(2), 462–474.

Speech of the Hearing Impaired

The effect of short-term auditory deprivation on the control of intraoral pressure in pediatric cochlear implant users. Jones, D. L., Gao, S., & Svirsky, M. A. 46(3), 658–669.

Professional and General Scientific Issues

Professional Affairs

Research Issues and Methodologies

Generalizability theory I: Assessing reliability of observational data in the communication sciences. O'Brian, N., O'Brian, S., Packman, A., & Onslow, M. 46(3), 711–717.
Generalizability theory II: Application to perceptual scaling of speech naturalness in adults who stutter. O'Brian, S., Packman, A., Onslow, M., & O'Brian, N. 46(3), 718–723.
Methodological issues in studies of early articulatory development: A response to Dworkin, Meleca, and Stachler (2003). Green, J. R., Moore, C. A., & Reilly, K. J. 46(4), 1020–1021.
Perceptual evaluation of tracheoesophageal speech by naive and experienced judges through the use of semantic differential scales. van As, C. J., Koopmans-van Beinum, F. J., Pols, L. C. W., & Hilgers, F. J. M. 46(4), 947–959.

Title Index

Accuracy and variability of isochronous rhythmic timing across motor systems in stuttering versus nonstuttering individuals. Max, L., & Yudman, E. M. 46(1), 146–163.
Acoustic and perceptual correlates of stress in nonwords produced by children with suspected developmental apraxia of speech and children with phonological disorder. Munson, B., Bjorum, E. M., & Windsor, J. 46(1), 189–202.
Acoustic characteristics of the question–statement contrast in severe dysarthria due to cerebral palsy. Patel, R. 46(6), 1401–1415.
Acoustic startle responses and temperament in individuals who stutter. Guitar, B. 46(1), 233–240.
The acquisition of the English plural morpheme by native Mandarin Chinese-speaking children. Jia, G. 46(6), 1297–1311.
Adjective definitions and the influence of word frequency. Marinellie, S. A., & Johnson, C. J. 46(5), 1061–1076.
Agrammatic comprehension of simple active sentences with moved constituents: Hebrew OSV and OVS structures. Friedmann, N., & Shapiro, L. P. 46(2), 288–297.
Anticipatory coarticulation in multiple sclerosis and Parkinson's disease. Tjaden, K. 46(4), 990–1008.
Anxiety levels in people who stutter: A randomized population study. Craig, A., Hancock, K., Tran, Y., & Craig, M. 46(5), 1197–1206.
Articulation rate and speech-sound normalization failure. Flipsen, P., Jr. 46(3), 724–737.
Association of orofacial muscle activity and movement during changes in speech rate and intensity. McClean, M. D., & Tasko, S. M. 46(6), 1387–1400.
Atypical syntactic processing in individuals who stutter: Evidence from event-related brain potentials and behavioral measures. Cuadrado, E. M., & Weber-Fox, C. M. 46(4), 960–976.
Auditory serial position effects in story retelling for non-brain-injured participants and persons with aphasia. Brodsky, M. B., McNeil, M. R., Doyle, P. J., Fossett, T. R. D., Timm, N. H., & Park, G. H. 46(5), 1124-1137.
Auditory temporal order discrimination and backward recognition masking in adults with dyslexia. Griffiths, Y. M., Hill, N. I., Bailey, P. J., & Snowling, M. J. 46(6), 1352–1366.
Auditory temporal processing in children with specific reading disability with and without attention deficit/hyperactivity disorder. Breier, J. I., Fletcher, J. M., Foorman, B. R., Klaas, P., & Gray, L. C. 46(1), 31–42.
Beginning to communicate after cochlear implantation: Oral language development in a young child. Ertmer, D. J., Strong, L. M., & Sadagopan, N. 46(2), 328–340.
The Camperdown program: Outcomes of a new prolonged-speech treatment model. O'Brian, S., Onslow, M., Cream, A., & Packman, A. 46(4), 933–946.
Changes in the human vocal tract due to aging and the acoustic correlates of speech production: A pilot study. Xue, S. A., & Hao, G. J. 46(3), 689–701.
Changes in the nature of sentence production during the period of grammatical development. Rispoli, M. 46(4), 818–830.
Children's consonant inventories after extended cochlear implant use. Chin, S. B. 46(4), 849–862.
Children's productions of the affix -ed in past tense and past participle contexts. Redmond, S. M. 46(5), 1095–1109.
Clinical outcomes as a function of target selection strategy: A response to Morrisette and Gierut. Rvachew, S., & Nowak, M. 46(2), 386–389.
Collaborative referencing between individuals with aphasia and routine communication partners. Hengst, J. A. 46(4), 831–848.
A comparison of language abilities in adolescents with Down syndrome and children with specific language impairment. Laws, G., & Bishop, D. V. M. 46(6), 1324–1339.
Comparison of transducers and intraoral placement options for measuring linguapalatal contact pressure during speech. Searl, J. P. 46(6), 1444–1456.
Completion of the consonant inventory of Arabic. Amayreh, M. M. 46(3), 517–529.
Contralateral acoustic reflex thresholds for tonal activators using wideband energy reflectance and admittance. Feeney, M. P., Keefe, D. H., & Marryott, L. P. 46(1), 128–136.
Contributions of semantic and facial information to perception of nonsibilant fricatives. Jongman, A., Wang, Y., & Kim, B. H. 46(6), 1367–1377.
Deaf adults without attention deficit hyperactivity disorder display reduced perceptual sensitivity and elevated impulsivity on the Test of Variables of Attention (T.O.V.A.). Parasnis, I., Samar, V. J., & Berent, G. P. 46(5), 1166–1183.
Delayed predictive accuracy of narrative recall after traumatic brain injury: Salience and explicitness. Kennedy, M. R. T., & Nawrocki, M. D. 46(1), 98–112.
Development and Testing of a Portable Vocal Accumulator. Cheyne, H. A., Hanson, H. M., Genereux, R. P., Stevens, K. N., & Hillman, R. E. 46(6), 1457–1467.
Development of materials for the clinical assessment of speech recognition: The Speech Sound Pattern Discrimination Test. Bochner, J. H., Garrison, W. M., Sussman, J. E., & Burkard, R. F. 46(4), 889–900.

DNA microarray gene expression analysis of a vocal fold polyp and granuloma. Thibeault, S. L., Hirschi, S. D., & Gray, S. D. 46(2), 491–502.
Do vocal warm-up exercises alleviate vocal fatigue? Milbrath, R. L., & Solomon, N. P. 46(2), 422–436.
Editor's page: Obituary for Maureen Higgins, Associate Editor–Speech, *JSLHR* (2000–2002). Ellis Weismer, S. 46(2), 260.
Editor's Page: Obituary for Robert C. Bilger, Former Editor of *JSHR* and Chair, ASHA Publications Board. Formby, C. 46(5), 1028.
Editor's Page: Summary Publication Statistics for 2002. 46(6), 1269–1270.
The effect of pacing strategies on the variability of speech movement sequences in dysarthria. McHenry, M. A. 46(3), 702–710.
The effect of short-term auditory deprivation on the control of intraoral pressure in pediatric cochlear implant users. Jones, D. L., Gao, S., & Svirsky, M. A. 46(3), 658–669.
Effectiveness of communication strategies used by caregivers of persons with Alzheimer's disease during activities of daily living. Small, J. A., Gutman, G., Makela, S., & Hillhouse, B. 46(2), 353–367.
The effectiveness of grammar instruction for individuals who use augmentative and alternative communication systems: A preliminary study. Lund, S. K., & Light, J. 46(5), 1110–1123.
Effects of concurrent motor, linguistic or cognitive tasks on speech motor performance. Dromey, C., & Benson, A. 46(5), 1234–1246.
The effects of taste and consistency on swallow physiology in younger and older healthy individuals: A surface electromyographic study. Ding, R., Logemann, J. A., Larson, C. R., & Rademaker, A. W. 46(4), 977–989.
Erratum: French–English bilingual children with SLI: How do they compare with their monolingual peers? Paradis, J., Crago, M., Genesee, F., & Rice, M. 46(2), 404.
Evidence of motor programming deficits in children diagnosed with DAS. Nijland, L., Maassen, B., & van der Meulen, S. 46(2), 437–450.
An examination of changes in hearing-aid performance and benefit in the elderly over a 3-year period of hearing-aid use. Humes, L. E., & Wilson, D. L. 46(1), 137–145.
Exchange of disfluency with age from function words to content words in Spanish speakers who stutter. Au-Yeung, J., Gomez, I. V., & Howell, P. 46(3), 754–765.
Explaining and controlling regression to the mean in longitudinal research designs. Zhang, X., & Tomblin, J. B. 46(6), 1340–1351.
A family aggregation study: The influence of family history and other risk factors on language development. Choudhury, N., & Benasich, A. A. 46(2), 261–272.
French–English bilingual children with SLI: How do they compare with their monolingual peers? Paradis, J., Crago, M., Genesee, F., & Rice, M. 46(1), 113–127.
Generalizability theory I: Assessing reliability of observational data in the communication sciences. O'Brian, N., O'Brian, S., Packman, A., & Onslow, M. 46(3), 711–717.
Generalizability theory II: Application to perceptual scaling of speech naturalness in adults who stutter. O'Brian, S., Packman, A., Onslow, M., & O'Brian, N. 46(3), 718–723.
Genetic and environmental mediation of the relationship between language and nonverbal impairment in 4-year-old twins. Viding, E., Price, T. S., Spinath, F. M., Bishop, D. V. M., Dale, P. S., & Plomin, R. 46(6), 1271–1282.
Grammatical morpheme effects on MLU: "The same can be less" revisited. Leonard, L. B., & Finneran, D. 46(4), 878–888.
Implementing speech supplementation strategies: Effects on intelligibility and speech rate of individuals with chronic severe dysarthria. Hustad, K. C., Jones, T., & Dailey, S. 46(2), 462–474.
Inferring emotional reactions in social situations: Differences in children with language impairment. Ford, J. A., & Milosky, L. M. 46(1), 21–30.
The influence of phonemic awareness development on acoustic cue weighting strategies in children's speech perception. Mayo, C., Scobbie, J. M., Hewlett, N., & Waters, D. 46(5), 1184–1196.
Interarticulator coordination in dysarthria: An X-ray microbeam study. Weismer, G., Yunusova, Y., & Westbury, J. R. 46(5), 1247–1261.
Interpreting differences in stuttering frequency on content and function words: A reply to Wingate (2003). Dayalu, V. N., Kalinowski, J., & Stuart, A. 46(6), 1471–1472.
Intonation abilities of children with speech and language impairments. Wells, B., & Peppé, S. 46(1), 5–20.
Is listener comfort a viable construct in stuttering research? O'Brian, S., Packman, A., Onslow, M., Cream, A., O'Brian, N., & Bastock, K. 46(2), 503–509.
Kinematic analyses of speech, orofacial nonspeech, and finger movements in stuttering and nonstuttering adults. Max, L., Caruso, A. J., & Gracco, V. L. 46(1), 215–232.
Labeling of /s/ and /ʃ/ by listeners with normal and impaired hearing, revisited. Hedrick, M. S., & Younger, M. S. 46(3), 636–648.
Language and fluency characteristics of preschoolers' multiple-utterance conversational turns. Logan, K. J. 46(1), 178–188.
Learning new words II: Phonotactic probability in verb learning. Storkel, H. L. 46(6), 1312–1323.
The Lidcombe behavioral data language of stuttering. Teesson, K., Packman, A., & Onslow, M. 46(4), 1009–1015.
Major problems with a revisit. Wingate, M. E. 46(6), 1468–1470.
Mental imagery and idiom comprehension: A comparison of school-age children and adults. Nippold, M. A., & Duthie, J. K. 46(4), 788–799.
A method for examining productivity of grammatical morphology in children with and without specific language impairment. Miller, C. A., & Deevy, P. 46(5), 1154–1165.
Methodological issues in studies of early articulatory development: A response to Dworkin, Meleca, and Stachler (2003). Green, J. R., Moore, C. A., & Reilly, K. J. 46(4), 1020–1021.
More on the role of the mandible in speech production: Clinical correlates of Green, Moore, and Reilly's (2002) findings. Dworkin, J. P., Meleca, R. J., & Stachler, R. J. 46(4), 1016–1019.
Morphology in picture descriptions provided by persons with Alzheimer's disease. Kavé, G., & Levy, Y. 46(2), 341–352.
Oral breathing challenge in participants with vocal attrition. Sivasankar, M., & Fisher, K. V. 46(6), 1416–1427.
Outcomes of different speech and language goal attack strategies. Tyler, A. A., Lewis, K. E., Haskill, A., & Tolbert, L. C. 46(5), 1077–1094.
Outcomes of early language delay: I. Predicting persistent and transient language difficulties at 3 and 4 years. Dale, P. S., Price, T. S., Bishop, D. V. M., & Plomin, R. 46(3), 544–560.
Outcomes of early language delay: II. Etiology of transient and persistent language difficulties. Bishop, D. V. M., Price, T. S., Dale, P. S., & Plomin, R. 46(3), 561–575.
Parent-reported language skills in relation to otitis media during the first 3 years of life. Feldman, H. M., Dollaghan, C. A., Campbell, T. F., Colborn, D. K., Janosky, J., Kurs-Lasky, M., Rockette, H. E., Dale, P. S., & Paradise, J. L. 46(2), 273–287.
Perception of place of articulation by children with cleft palate and posterior placement. Whitehill, T. L., Francis, A. L., & Ching, C. K-Y. 46(2), 451–461.
The perception of "sine-wave speech" by adults with developmental dyslexia. Rosner, B. S., Talcott, J. B., Witton, C., Hogg, J. D., Richardson, A. J., Hansen, P. C., & Stein, J. F. 46(1), 68–79.
Perception of vocal tremor. Kreiman, J., Gabelman, B., & Gerratt, B. R. 46(1), 203–214.
Perceptual evaluation of tracheoesophageal speech by naive and experienced judges through the use of semantic differential scales. van As, C. J., Koopmans-van Beinum, F. J., Pols, L. C. W., & Hilgers, F. J. M. 46(4), 947–959.
Perceptual normalization for inter- and intratalker variation in Cantonese level tones. Wong, P. C. M., & Diehl, R. L. 46(2), 413–421.
The performance of low-income, African

American children on the Preschool Language Scale–3. Qi, C. H., Kaiser, A. P., Milan, S. E., Yzquierdo, Z., & Hancock, T. B. 46(3), 576–590.
The performance of typically developing 2½-year-olds on dynamic display AAC technologies with different system layouts and language organizations. Drager, K. D. R., Light, J. C., Speltz, J. C., Fallon, K. A., & Jeffries, L. Z. 46(2), 298–312.
Phonological features of child African American English. Craig, H. K., Thompson, C. A., Washington, J. A., & Potter, S. L. 46(3), 623–635.
Phonological priming in picture naming of young children who stutter. Melnick, K. S., Conture, E. G., & Ohde, R. N. 46(6), 1428–1443.
Posterior pharyngeal wall position in the production of speech. Magen, H. S., Kang, A. M., Tiede, M. K., & Whalen, D. H. 46(1), 241–251.
Processing and linguistic markers in young children with specific language impairment (SLI). Conti-Ramsden, G. 46(5), 1029–1037.
Quantitative and graphic acoustic analysis of phonatory modulations: The modulogram. Buder, E. H., & Strand, E. A. 46(2), 475–490.
Quick incidental verb learning in 4-year-olds: Identification and generalization. Brackenbury, T., & Fey, M. E. 46(2), 313–327.
Relevance and speed of message delivery trade-offs in augmentative and alternative communication. Bedrosian, J. L., Hoag, L. A., & McCoy, K. F. 46(4), 800–817.
Repair behavior in children with intellectual impairments: Evidence for metalinguistic competence. Levy, Y., Tennebaum, A., & Ornoy, A. 46(2), 368–381.
Respiratory and laryngeal responses to an oral air pressure bleed during speech. Huber, J. E., & Stathopoulos, E. T. 46(5), 1207–1220.
Respiratory sinus arrhythmia during speech production. Reilly, K. J., & Moore, C. A. 46(1), 164–177.
Responses to targets in the visual periphery in deaf and normal-hearing adults. Rothpletz, A. M., Ashmead, D. H., & Tharpe, A. M. 46(6), 1378–1386.
The role of semantic complexity in treatment of naming deficits: Training semantic categories in fluent aphasia by controlling exemplar typicality. Kiran, S., & Thompson, C. K. 46(4), 773–787.
The role of syntactic complexity in treatment of sentence deficits in agrammatic aphasia: The complexity account of treatment efficacy (CATE). Thompson, C. K., Shapiro, L. P., Kiran, S., & Sobecks, J. 46(3), 591–607.
The role of the input in the acquisition of third person singular verbs in English. Theakston, A. L., Lieven, E. V. M., & Tomasello, M. 46(4), 863–877.
Speaking clearly for children with learning disabilities: Sentence perception in noise. Bradlow, A. R., Kraus, N., & Hayes, E. 46(1), 80–97.
Specific language impairment in families: Evidence for co-occurrence with reading impairments. Flax, J. F., Realpe-Bonilla, T., Hirsch, L. S., Brzustowicz, L. M., Bartlett, C. W., & Tallal, P. 46(3), 530–543.
Spectral characteristics of speech at the ear: Implications for amplification in children. Pittman, A. L., Stelmachowicz, P. G., Lewis, D. E., & Hoover, B. M. 46(3), 649–657.
The stability of primary language disorder: Four years after kindergarten diagnosis. Tomblin, J. B., Zhang, X., Buckwalter, P., & O'Brien, M. 46(6), 1283–1296.
Surface forms and grammatical functions: Past tense and passive participle use by children with specific language impairment. Leonard, L. B., Deevy, P., Miller, C. A., Rauf, L., Charest, M., & Kurtz, R. 46(1), 43–55.
Talker and lexical effects on audiovisual word recognition by adults with cochlear implants. Kaiser, A. R., Kirk, K. I., Lachs, L., & Pisoni, D. B. 46(2), 390–404.
Talker separation and sequential stream segregation in listeners with hearing loss: Patterns associated with talker gender. Mackersie, C. L. 46(4), 912–918.
Temperamental characteristics of young children who stutter. Anderson, J. D., Pellowski, M. W., Conture, E. G., & Kelly, E. M. 46(5), 1221–1233.
Three treatments for teachers with voice disorders: A randomized clinical trial. Roy, N., Weinrich, B., Gray, S. D., Tanner, K., Stemple, J. C., & Sapienza, C. M. 46(3), 670–688.
Tri-word presentations with phonemic scoring for practical high-reliability speech recognition assessment. Gelfand, S. A. 46(2), 405–412.
Unified treatment recommendations: A response to Rvachew and Nowak (2001). Morrisette, M. L., & Gierut, J. A. 46(2), 382–385.
Vocal dose measures: Quantifying accumulated vibration exposure in vocal fold tissues. Titze, I. R., Švec, J. G., & Popolo, P. S. 46(4), 919–932.
Vowel category dependence of the relationship between palate height, tongue height, and oral area. Hasegawa-Johnson, M., Pizza, S., Alwan, A., Cha, J. S., & Haker, K. 46(3), 738–753.
Wideband energy reflectance measurements in adults with middle-ear disorders. Feeney, M. P., Grant, I. L., & Marryott, L. P. 46(4), 901–911.
Word learning by preschoolers with specific language impairment: What predicts success? Gray, S. 46(1), 56–67.
Working memory capacity and language processes in children with specific language impairment. Marton, K., & Schwartz, R. G. 46(5), 1138–1153.
Writing treatment for severe aphasia: Who benefits? Beeson, P. M., Rising, K., & Volk, J. 46(5), 1038–1060.
